If applicable, please use the volume to weight conversion factors referenced in 30 TAC, Chapter 330, Subchapter P, 330.675(a)(2) and Chapter 326, Subchapter G, 326.89(a)(5).

Note: volume to weight conversion factors to be used for converting cubic yards to tons are:

- For medium compacted cubic yards (CCY), divide total CCY by 3
- For heavy compacted cubic yards, divide total CCY by 2.5
- For uncompacted cubic yards (UCCY), divide total UCCY by 5
