Municipal solid waste, Class 1-3 non-hazardous industrial waste

What geographical area would the wastes come from?

Rio Grande Valley

¹ www.tceq.texas.gov/goto/view-30tac

² www.tceq.texas.gov/gis/hb-610-viewer

What days and hours would the facility operate?

Monday through Saturday 6:00 am to 7:00 pm.

At what rate would wastes be accepted?

Site is authorized to accept up to 2,160,000 tons per year.

How would wastes be managed?

Disposal in lined cells.

E. Pollution Control Methods

What methods would the facility use for containing wastes and odors, and monitoring for releases?

Site has a Subtitle D compliant composite liner system and final cover. Site has existing groundwater monitoring wells and this application proposes to install additional wells. Site has an active landfill gas collection system.

What methods would the facility use or require for preventing litter or spills, and for cleanup of litter and spills?

Loads entering the facility are required to be tarped and the site is required to collect litter and spills around the facility and roads that are used to access the facility.
