Plain Language Summary

Industrial and Hazardous Waste Permit Applications

Instructions: Complete this form and submit with any industrial hazardous waste, or industrial solid waste, permit application that is subject to 30 Texas Administrative Code §39.405(k) [applications for a Class 3 permit modification, permit amendment, permit renewals, and for a new permit]. Please be concise.

Application Information							
Purpose of applicati	on:	□New	⊾Renewal	■Modification/Amendment			
Date Submitted to TCEQ: April 23, 2025							
Customer Name: Joy Global Longview Operations LLC							
Facility Name: Joy	Global Longview Operations LLC						
CN: 604357756			RN: 100650779				
Permit Number: 50263			Solid Waste Registration Number: 30062				
Facility Street Address: 2400 MacArthur Boulevard, Longview, Texas 75601							
Weblink to Street Address: https://arcg.is/1zfbCu1							
Facility Information (check all that apply)							
What is the primary type of business?	\Box Chemical manufacturing \Box Oil refinery $\ \Box$ Treatment, storage or disposal facility plant						
	■Other If other, enter description: Mobile equipment manufacturing						
What does the facility produce?	□Ch	emicals	□Fuels / lubri	cants □No products			
	■Other If other, enter description: Mobile equipment						
Waste Management Information (check all that apply)							
What types of wastes are managed?	×No	nhazardous ir	ndustrial ⊠Hazar	dous			
	□Other If other, enter description:						
Where does the waste come from?	□Of	f-site source	≭ On-sit	e source			
How is the waste managed?	□Sto	orage	□Process / Tre	atment □Disposal			
	☑Other If other, enter description: Waste contained in closed landfill.						
What type of units manage the waste?	□Ac	tive	≭Post-0	Closure			
	Type and count: Post-closure unit - closed landfill (1)						
What happens to waste managed at the facility?	□Tra	ansported off-	site \(\subseteq \textstyle \tex	sed on-site			
	■Other If other, enter description: Previously disposed in on-site closed landfill.						

Pollution Control Methods (check all that apply)							
How will the facility prevent spills, leaks, and releases?	■Routine inspections □Engineered liner systems □Spill containment						
	□Proper waste handling	□Operations in enclosed buildings	⊠Groundwater monitoring				
	□Other If other, enter description:						
How will the facility clean up spills, leaks, and releases?	□Spill clean-up supplies □Decontamination equipment						
	□Other If other, enter description: Routine inspections and groundwater monitoring indicate no spills, leaks, and releases.						
How will the facility prevent / minimize air emissions?	□Air monitoring / control systems □Filters / scrubbers □Routine inspections						
	□Proper waste handling □Operations in enclosed buildings						
	■ Other If other, enter description: N/A						

Description of Update (for Class 3 Modifications and Amendments only)

List and explain any changes this modification or amendment would make to the two sections above— Waste Management Information and Pollution Control Methods.

This hazardous waste permit renewal includes a major amendment requesting that the closed landfill (WMU 001), which is in post-closure care, required groundwater monitoring be changed from a compliance monitoring program to a detection monitoring program. This request is made as all chemicals of concern (COCs) in groundwater have been continuously reported as non-detect at all point of exposure wells since 1998. Furthermore, all monitoring wells have been reported below the COC groundwater protection standards (GWPSs) since 1994.
