Dear Mr. Poole:

On behalf of Waste Connections Lone Star, Inc., please find enclosed one original and three copies of the replacement pages for the referenced permit amendment application. The attached replacement pages were developed to incorporate comments included in your email dated July 15, 2025. The enclosed table contains each comment identified by the TCEQ and a response to each below the comment.

During the course of your review, if you need additional information or have any questions, please call.

Sincerely,

A handwritten signature in black ink, appearing to read 'C Marsh'.

Charles Marsh, P.E.
Project Director

16. Description of Proposed Facility or Changes to Existing Facility

Provide a brief description of the proposed activities if application is for a new facility, or the proposed changes to an existing facility or permit conditions if the application is for an amendment.

The WC Weatherford Transfer Station is an existing registered facility with an approved MSW transfer capacity of 2,000 tpd. This application seeks to convert the facility from a registration to a permit. No changes are proposed to the site, aside from removing the requirement that the TS reduces at least 10% of incoming waste through recycling and recovery programs, due to an insufficient waste stream to support the required 10% diversion through the recycling and recovery program.

1 INTRODUCTION

The WC Weatherford TS is an existing registered transfer station operating under MSW Type V registration number 40301. This application proposes to change the registration to a Type V Permit, and no physical changes are proposed at the site. The Type V Permit will allow the facility to continue to operate and removes the requirement to recover at least 10% of the incoming waste stream for reuse or recycling. The current waste stream does not support the 10% threshold. As a result, WC Weatherford TS is seeking to convert the facility's authorization from a registration to a permit.

§330.59,
§330.61, and
§305.45.*

The WC Weatherford Transfer Station (TS) is an existing Type V municipal solid waste (MSW) processing facility ~~to be~~ located in southwest Weatherford in Parker County, Texas. The existing facility ~~will be~~ is located approximately 1 mile southeast of Interstate Highway 20 (IH-20) and Dennis Road on Old Brock Road in Parker County, Texas within the city limits of Weatherford. The WC Weatherford TS will be owned and operated by Waste Connections Lone Star, Inc. (WCLS).

The WC Weatherford TS will provide an efficient means to transfer MSW that is generated in the City of Weatherford, Parker County, and the surrounding areas to a Texas Commission on Environmental Quality (TCEQ) permitted Type I MSW landfill.

The General Application Requirements section (Parts I and II) of this application for the WC Weatherford TS has been prepared consistent with the applicable TCEQ requirements set forth in Title 30 TAC §330.59 and §330.61. As it is allowed by Title 30 TAC §330.57(c)(2), Parts I and II of the application are combined under "General Application Requirements." Section 2, Supplementary Technical Report, presents an overview of the project and a detailed facility description, as well as the types of waste that will be accepted at the facility. The remaining portions of the General Application Requirements section of the permit application present information on specific existing conditions (i.e., land use, transportation, and various compliance requirements) related to the TS facility location and legal matters of the entities involved in the application process.
