Re: Response to Notice of Deficiency Letter – Type V Permit Amendment Application  
WC Weatherford Transfer Station, Permit No. MSW-2426  
RN104973557/CN600321871  
Tracking No. 31587658

Dear Mr. Poole:

On behalf of Waste Connections Lone Star, Inc., please find enclosed one original and three copies of the replacement pages for the referenced permit amendment application. The attached replacement pages were developed to incorporate comments included in your email dated August 26, 2025. The response letter contains each item identified by the TCEQ (in bold) and a response to each item.

#### **1. Type V Permit Application:**

- a. General-Revise Section 8.4 of the permit application to include justification for the new proposed waste acceptance hours for Saturdays, and for the increase in hours for heavy equipment operation, transfer trailer loading, and transportation of materials off-site. In addition, briefly describe any changes in operating hours within Item 16 (Description of Proposed Facility or Changes to Existing Facility) of Form TCEQ-00650.**

**Response:** *Parts I/II Section 2.1.4 (Page I/II-2-8), and Part IV-SOP Section 8.4 (Page IV-23) have been revised to provide justification for the proposed Saturday waste acceptance hours and the requested increase in hours for heavy equipment operation, transfer trailer loading, and off-site transportation of materials. In addition, Item 16 of Form TCEQ-00650 has been updated to briefly describe the proposed changes in operating hours.*

During the course of your review, if you need additional information or have any questions, please call.

Sincerely,

A handwritten signature in blue ink, appearing to read 'C Marsh'.

Charles Marsh, P.E.  
Project Director

**16. Description of Proposed Facility or Changes to Existing Facility**

Provide a brief description of the proposed activities if application is for a new facility, or the proposed changes to an existing facility or permit conditions if the application is for an amendment.

The WC Weatherford Transfer Station is an existing registered facility with an approved MSW transfer capacity of 2,000 tpd. This application seeks to convert the facility from a registration to a permit. No changes are proposed to the site, aside from removing the requirement that the TS reduces at least 10% of incoming waste through recycling and recovery programs, due to an insufficient waste stream to support the required 10% diversion through the recycling and recovery program, and the modification of hours for heavy equipment operation/material transportation, this change is being made to make operations align with collection route schedules and landfill disposal hours.

- The TS facility is a steel-framed structure with a metal roof and partial siding on two sides covering an open concrete tipping floor. Ventilation is provided at the east and west sides of the structure, which are completely open for the collection vehicles and transfer trailers to easily enter and exit the facility. The tipping floor has an area of approximately 20,400 square feet (120 feet by 170 feet). As demonstrated in Table 2-1, the capacity of the TS exceeds the maximum allowable waste acceptance rate of 2,000 tons per day.
- The scale house, consisting of an office for use by a scale house attendant, is positioned at the entrance of the site with windows to allow for communication and exchange of paperwork.
- A minimum 2,000-gallon (approximate) contaminated water holding tank is located on the south side of the TS structure. Contaminated water and wash water from the tipping floor drains to the holding tank prior to being pumped out and transported to a permitted wastewater treatment facility.
- A citizens drop off area (comprised of waste containers staged off the transfer station tipping floor) for use by the public to dispose of waste may be designated during future operations, or WC may choose to allow the public to utilize the TS tipping floor. Either a future drop off area or the TS tipping floor are acceptable to receive waste from the public.

#### **2.1.4 Site Operating Plan**

The SOP for the WC Weatherford TS is presented in Part IV of this application. The site is operated by appropriately trained personnel. The SOP describes the equipment, personnel, and safety procedures required to operate the site in accordance with TCEQ regulations.

WCLS, the general public, and other commercial waste transportation companies may utilize this facility for the receipt and processing of waste between the hours of 5:00 a.m. and 7:00 p.m., Monday through Friday, and 7:00 a.m. to 12:00 p.m. on Saturday. The need for extended hours outside the hours set forth in Title 30 TAC §330.229 is based on waste collection vehicles collecting waste during hours outside the 7:00 a.m. to 7:00 p.m. time frame. Waste receipt hours for the public are posted on the entrance sign and will be within the hours listed above.

In addition to the waste acceptance hours above, heavy equipment operation, transfer trailer loading, and transportation of materials off the site may occur between 4:00 a.m. and 8:00 p.m. Monday through Friday, and between 4:00 a.m. and 4:00 p.m. on Saturday. The request for extended heavy equipment operating hours beyond those set forth in Title 30 TAC §330.229 is being made to align facility operations with collection route schedules and landfill disposal hours. Other non-waste management activities, including administrative and maintenance activities, do not require specific approval and may occur 24 hours per day, 7 days per week.

## **2.2 Texas Historical Commission Review**

A Texas Historical Commission Coordination Letter is included in Appendix I/IIA. The historical commission concluded that no historic properties will be affected by the proposed TS development.

Other non-waste management activities, including administrative and maintenance activities, do not require specific approval and may occur 24 hours per day, 7 days per week.

In addition, the transfer station may request alternative operating hours to accommodate special occasions, special purpose events, holidays, or other special occurrences. The facility will notify the TCEQ regional office in advance for these alternative hours.

When warranted, the facility supervisor will request approval from the commission's regional office to allow additional temporary operating hours to address disaster or other emergency situations, or other unforeseen circumstances (such as traffic delays or adverse weather) that could result in the disruption of waste management services in the area. The facility personnel will document the reason or reasons for the delay for each day on which a delay occurs and place the documentation in the operating record.

The facility will record the dates, time, and duration when any alternative operating hours are utilized. The information will be maintained with the site operating record Facility Sign (§330.231)

## **8.5 Facility Signage (§330.231)**

A conspicuous sign measuring a minimum four feet by four feet will be maintained at the public entrance to the facility. The sign states, in letters at least three inches high, the following information:

Type of MSW Facility: Type V

Authorized by TCEQ Permit Number: MSW-2426

Hours of Operation for Waste Acceptance:

5:00 a.m. to 7:00 p.m., Monday through Friday

7:00 a.m. to 12:00 p.m., Saturday

Local Emergency Fire Department Number: 911

Other relevant information may also be included on the sign. Waste acceptance hours for both commercial waste haulers and the public may differ from the permitted hours shown above and, if different, will be posted on the facility sign. In
