#### DOMESTIC WASTEWATER

*The following summary is provided for this pending water quality permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.*

City of Cisco (CN600705883 ) operates the City of Cisco Wastewater Treatment Plant RN102186533. a pond system. The facility is located currently located approximately 1,900 feet east and 4,500 feet north of the intersection of U.S. Highway 183 and U.S. Highway 80 in Eastland County, Texas 76437. The Final Phase wastewater treatment facility (a membrane bioreactor (MBR) treatment system) will be located at 320 Tourist Street, in Cisco, Eastland County, Texas 76437.

The application requests an adjustment to the Buffer Zone in the Final Phase at the proposed 320 Tourist Street facility.

Discharges from the facility are expected to contain biological oxygen demand (5-day), total suspended solids, and E. coli. Municipal wastewater is treated by a pond system in the Interim Phase. The treatment units include a bar screen, a facultative lagoon, and two stabilization ponds in series. The new, Final Phase wastewater treatment facility will be a mechanical membrane bioreactor (MBR) process plant. Treatment units in the Final Phase will include a screen system, an MBR treatment system, a chlorine contact basin, and a waste activated sludge storage and dewatering system.
