TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN WATER QUALITY PERMIT RENEWAL

PERMIT NO. WQ0014659002

APPLICATION. Leon Independent School District, 12168 U.S. Highway 79, Jewett, Texas 75846, has applied to the Texas Commission on Environmental Quality (TCEQ) to renew Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0014659002 (EPA I.D. No. TX0135127) to authorize the discharge of treated wastewater at a volume not to exceed a daily average flow of 20,000 gallons per day. The domestic wastewater facility is located at 12168 U.S. Highway 79, near the city of Jewett, in Leon County, Texas 75846. The discharge route is from the plant site to a roadside ditch; thence to an unnamed tributary; thence to Cedar Creek; thence to Brushy Creek; thence to Navasota below Lake Limestone. TCEQ received this application on October 21, 2024. The permit application will be available for viewing and copying at Leon Independent School District, Front Desk, 12168 U.S. Highway 79, Jewett, in Leon County, Texas prior to the date this notice is published in the newspaper. The application, including any updates, and associated notices are available electronically at the following webpage: https://www.tceq.texas.gov/permitting/wastewater/pending-permits/tpdes-applications. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For the exact location, refer to the application. https://gisweb.tceq.texas.gov/LocationMapper/?marker=-96.209444,31.32&level=18

ADDITIONAL NOTICE. TCEQ's Executive Director has determined the application is administratively complete and will conduct a technical review of the application. After technical review of the application is complete, the Executive Director may prepare a draft permit and will issue a preliminary decision on the application. **Notice of the Application and Preliminary Decision will be published and mailed to those who are on the county-wide mailing list and to those who are on the mailing list for this application. That notice will contain the deadline for submitting public comments.**

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting on this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ will hold a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a

response to all relevant and material, or significant public comments. **Unless the application is directly referred for a contested case hearing, the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting reconsideration of the Executive Director's decision and for requesting a contested case hearing.** A contested case hearing is a legal proceeding similar to a civil trial in state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name, address, phone number; applicant's name and proposed permit number; the location and distance of your property/activities relative to the proposed facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period and, the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material water quality concerns submitted during the comment period.**

TCEQ may act on an application to renew a permit for discharge of wastewater without providing an opportunity for a contested case hearing if certain criteria are met.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this specific application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be placed on: (1) the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. If you wish to be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

INFORMATION AVAILABLE ONLINE. For details about the status of the application, visit the Commissioners' Integrated Database at www.tceq.texas.gov/goto/cid. Search the database using the permit number for this application, which is provided at the top of this notice.

Hello,

Thank you for your response, however there are still a few items that I will need additional information on before I can declare the application administratively complete.

For item 1 of the NOD, we still have not received your paper application and as such cannot verify your payment. If you can confirm when the application arrives, please let me know otherwise I will try and check periodically.
For Item 3 the provided USGS map must include the following items.

1. The applicant's property boundaries
2. The treatment facility boundaries
3. Point of discharge (outfall)
4. Highlighted route 3 miles downstream or until a classified segment
5. 1 mile radius

Since it is unlikely that the paper application will be delivered by the deadline, I will work on getting an extension. You should not receive any penalty for this.

Please let me know if you have any questions

Brandon Maldonado

Hello,

This is correct however, this is still not sufficient. I require an electronic copy of the USGS map with the marked items. While I can scan the provided map in the paper copy if this will help you there are still items that are missing.

The following items are required on all USGS maps

1. The applicant's property boundaries
2. The treatment facility boundaries
3. Point of discharge (outfall)
4. Highlighted route 3 miles downstream or until a classified segment
5. 1 mile radius

The provided map only shows items 3 and 4. I can only declare the application admin complete once I receive a USGS map with all 5 items marked. If the property and facilities boundaries are the same, please note either on the map or in an email that they are the same.

Please let me know if you have any questions.

Mr. Maldanado,

There was a 7.5 minute USGS map sent with the paper copies that was marked with the facility along with the route that the discharge travels. If this was not correct please let me know.

Thanks,

Matt Martin

Since then, I have been able to confirm your payment and received a paper copy of your application on December 10th. However, a USGS map is still required with the items noted in my November 7th email marked. Your paper application had most of the items listed but was still missing the one-mile radius and property boundaries. I require all items to be emailed to me so that I can add them to your electronic application.
