Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material water quality concerns submitted during the comment period.**

If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this specific application to receive future public notices mailed by the Office of the Chief Clerk. Good morning, Mr. Goebel,

Thank you for your response. Your response to items 2, 3, 6, and 7 are sufficient. However, more information is needed for items 1, 4, and 5. Please see below:

- **Item 1 of NOD** – Your email had stated “please see revised 10053” however, I did not see this attachment within your email. Can you please send that over to me?

- **Landowner List** – the landowner list was not provided. This is to be separate from the labels. Please provide the affected landowner list.
- **Spanish NORI** – No worries, that was not provided to you in the English NORI draft portions, as I was awaiting RWA’s review and approval of the discharge route, so I can add that in for you. Regarding the paragraph you are not seeing in the Spanish NORI template, it is the last paragraph of the NORI, as shown below. I went ahead and added it into the Spanish NORI that you provided, so this item is sufficient.

Jeff,

I have yet to receive the updated USGS map that has the one-mile radius and is clearly labeled. I believe everything else on the previous map looked good; it was just those two things I was needed.

Things to Know:

- All the items shown on the map must be labeled.
- The applicant's complete property boundaries must be delineated which includes boundaries of contiguous property owned by the applicant.
- The applicant cannot be its own adjacent landowner. You must identify the landowners immediately adjacent to their property, regardless of how far they are from the actual facility.
- If the applicant's property is adjacent to a road, creek, or stream, the landowners on the opposite side must be identified. Although the properties are not adjacent to applicant's property boundary, they are considered potentially affected landowners. If the adjacent road is a divided highway as identified on the USGS topographic map, the applicant does not have to identify the landowners on the opposite side of the highway.
