Subject: Comments in support of strong standards and procedures for plastic pellet discharge prohibition

Dear Public Comment - TCEQ,

I support TCEQ's proposal to regulate the discharge of plastic and establish a threshold of zero discharge

from facilities that make or process preproduction plastics. Furthermore, I support the Surfrider

Foundation's recommendations to strengthen the enforcement measures, monitoring provisions,

reporting requirements, and operations and maintenance procedures in addition to what is proposed by

TCEQ to ensure the zero discharge goal and prevent harmful plastic pollution from negatively impacting

Texas' natural resources.

Sincerely,

RYAN TURNER

440 Naples St

Corpus Christi, TX 78404
