Re: Luminant Generation Company LLC, CN603256413
Applications for Severance of Certificate of Adjudication No. 03-4804

To Whom It May Concern:

Luminant Generation Company LLC holds Certificate of Adjudication No. 03-4804, as amended ("COA 4804"). Luminant seeks to split COA 4804 into three pieces, with certain rights remaining in COA 4804 and the rest being severed into two new separately designated water rights, referred to below as Water Right A and Water Right B for descriptive purposes. As described in the attached Water Rights Permitting Applications, Luminant requests that the three resulting water rights contain the following authorizations and associated terms and conditions:

- COA 4804 to continue to include:
 - USE: The right to divert and use not to exceed 8,215 acre-feet of water per year from the Sulphur River for industrial, domestic, municipal, agricultural, and recreational purposes within those portions of Red River, Franklin, and Titus counties in the Sulphur River Basin; and
 - Other terms and conditions contained in the current COA 4804, *other than* 1. Impoundment and Special Conditions 5.C. and 5.D. (which should be removed from COA 4804 and only be included in New Water Right A).
- New Water Right A to include:
 - USE: The right to divert and use not to exceed 785 acre-feet of water per year from the Sulphur River for industrial, domestic, municipal, agricultural, and recreational purposes within those portions of Red River, Franklin, and Titus counties in the Sulphur River Basin;
 - IMPOUNDMENT: The right to maintain an existing 7,100 acre-foot capacity off-channel reservoir and impound therein not to exceed 7,100 acre-feet of water. The reservoir is located in the Preston Bland Survey, Abstract 32; the James W. Belue Survey, Abstract 125; the John Courley Survey, Abstract 204; the Randolph Creek Survey, Abstract 218; the Pleasant McMicken Survey, Abstract 581; the L. L. Bigham Survey, Abstract 1057; the John Duval Survey, Abstract 1102; the T. E. Wilson Survey, Abstract 1282; and the T.P.& L. Company Survey, Abstract 1735, Red River County, Texas; and
 - All other terms and conditions contained in the current COA 4804, including all Special Conditions.

- New Water Right B to include:

- USE: The right to divert and use not to exceed 1,000 acre-feet of water per year from the Sulphur River for industrial, domestic, municipal, agricultural, and recreational purposes within those portions of Red River, Franklin, and Titus counties in the Sulphur River Basin; and
- Other terms and conditions contained in the current COA 4804, *other than* 1. Impoundment and Special Conditions 5.C. and 5.D. (which should only be included in New Water Right A above).

Besides these ministerial severances, Luminant requests no other amendments or changes to its water right. If you have any questions or need any additional information to process these severances, please do not hesitate to contact me at 903-603-1145 or kyle.box@luminant.com.

Respectfully,

ADMINISTRATIVE INFORMATION REPORT

The following information is required for all new applications and amendments.

*****Applicants are REQUIRED to schedule a pre-application meeting with TCEQ Staff to discuss Applicant's needs prior to submitting an application. Call the Water Rights Permitting Team to schedule a meeting at (512) 239-4600.**

1. TYPE OF APPLICATION (Instructions, Page. 6)

Indicate, by marking X, next to the following authorizations you are seeking.

- ☐ New Appropriation of State Water
☒ Amendment to a Water Right *
☐ Bed and Banks

****If you are seeking an amendment to an existing water rights authorization, you must be the owner of record of the authorization. If the name of the Applicant in Section 2 does not match the name of the current owner(s) of record for the permit or certificate or if any of the co-owners is not included as an applicant in this amendment request, your application could be returned. If you or a co-applicant are a new owner, but ownership is not reflected in the records of the TCEQ, submit a change of ownership request (Form TCEQ-10204) prior to submitting the application for an amendment. See Instructions page. 6. Please note that an amendment application may be returned, and the Applicant may resubmit once the change of ownership is complete.***

Please summarize the authorizations or amendments you are seeking in the space below or attach a narrative description entitled "Summary of Request."

With this and a parallel application, we are seeking to split Certificate of Adjudication 03-4804 (as amended) ("COA 4804") into three pieces, with certain rights remaining in COA 4804 and the rest being severed into two new, separately-designated water rights.

By this application, we seek to sever from COA 4804 and combine into one such new, separately-designated water right ("New WR A") the following rights:

1. IMPOUNDMENT: The right to maintain an existing 7,100 acre-foot capacity off-channel reservoir and impound therein not to exceed 7,100 acre-feet of water. The reservoir is located in the Preston Bland Survey, Abstract 32; the James W. Belue Survey, Abstract 125; the John Courley Survey, Abstract 204; the Randolph Creek Survey, Abstract 218; the Pleasant McMicken Survey, Abstract 581; the L. L. Bigham Survey, Abstract 1057; the John Duval Survey, Abstract 1102; the T. E. Wilson Survey, Abstract 1282 Survey, and the T.P.& L. Company Survey, Abstract 1735, Red River County, Texas.

2. USE: The right to divert and use not to exceed 785 acre-feet of water per year from the Sulphur River for industrial, domestic, municipal, agricultural, and recreational purposes within those portions of Red River, Franklin, and Titus counties in the Sulphur River Basin; and;

Along with the above provisions, we seek to sever and remove from COA 4804, and combine into the New WR A, Special Conditions 5.C. and 5.D., relating to the dam and the off-channel reservoir. All other permit terms and conditions, including the Priority date, would also be included in the New WR A. Remaining COA 4804 would revise the volume in 2. Use (8,215 afy) and exclude 1. Impoundment and Special Conditions 5.C. and 5.D.

This Report is required for applications for new or amended water rights. Based on the Applicant's responses below, Applicants are directed to submit additional Worksheets (provided herein). A completed Administrative Information Report is also required for each application.

Applicants are REQUIRED to schedule a pre-application meeting with TCEQ Permitting Staff to discuss Applicant's needs and to confirm information necessary for an application prior to submitting such application. Please contact the Water Availability Division at (512) 239-4600 or WRPT@tceq.texas.gov to schedule a meeting.

Date of pre-application meeting: 02/21/2025

1. New or Additional Appropriations of State Water. Texas Water Code (TWC) § 11.121 (Instructions, Page. 12)

State Water is: *The water of the ordinary flow, underflow, and tides of every flowing river, natural stream, and lake, and of every bay or arm of the Gulf of Mexico, and the storm water, floodwater, and rainwater of every river, natural stream, canyon, ravine, depression, and watershed in the state. TWC § 11.021.*

- a. Applicant requests a new appropriation (diversion or impoundment) of State Water? Y / N N
- b. Applicant requests an amendment to an existing water right requesting an increase in the appropriation of State Water or an increase of the overall or maximum combined diversion rate? Y / N N (If yes, indicate the Certificate or Permit number: N/A)

If Applicant answered yes to (a) or (b) above, does Applicant also wish to be considered for a term permit pursuant to TWC § 11.1381? Y / N N/A

- c. Applicant requests to extend an existing Term authorization or to make the right permanent? Y / N N (If yes, indicate the Term Certificate or Permit number: N/A)

If Applicant answered yes to (a), (b) or (c), the following worksheets and documents are required:

- **Worksheet 1.0 – Quantity, Purpose, and Place of Use Information Worksheet**
- **Worksheet 2.0 – Impoundment/Dam Information Worksheet** (submit one worksheet for each impoundment or reservoir requested in the application)
- **Worksheet 3.0 – Diversion Point Information Worksheet** (submit one worksheet for each diversion point and/or one worksheet for the upstream limit and one worksheet for the downstream limit of each diversion reach requested in the application)
- **Worksheet 5.0 – Environmental Information Worksheet**
- **Worksheet 6.0 – Water Conservation Information Worksheet**
- **Worksheet 7.0 – Accounting Plan Information Worksheet**
- **Worksheet 8.0 – Calculation of Fees**
- **Fees calculated on Worksheet 8.0 – see instructions Page. 34.**
- **Maps – See instructions Page. 15.**
- **Photographs – See instructions Page. 30.**

Additionally, if Applicant wishes to submit an alternate source of water for the project/authorization, see Section 3, Page 3 for Bed and Banks Authorizations (Alternate sources may include groundwater, imported water, contract water or other sources).

Additional Documents and Worksheets may be required (see within).

2. Amendments to Water Rights. TWC § 11.122 (Instructions, Page. 12)

This section should be completed if Applicant owns an existing water right and Applicant requests to amend the water right. ***If Applicant is not currently the Owner of Record in the TCEQ Records, Applicant must submit a Change of Ownership Application (TCEQ-10204) prior to submitting the amendment Application or provide consent from the current owner to make the requested amendment. If the application does not contain consent from the current owner to make the requested amendment, TCEQ will not begin processing the amendment application until the Change of Ownership has been completed and will consider the Received Date for the application to be the date the Change of Ownership is completed. See instructions page. 6.***

Water Right (Certificate or Permit) number you are requesting to amend: ADJ 4804

Applicant requests to sever and combine existing water rights from one or more Permits or Certificates into another Permit or Certificate? Y / N Y (if yes, complete chart below):

- **Additional Documents and Worksheets may be required (see within).**

4. **General Information, Response Required for all Water Right Applications (Instructions, Page 15)**

- a. Provide information describing how this application addresses a water supply need in a manner that is consistent with the state water plan or the applicable approved regional water plan for any area in which the proposed appropriation is located or, in the alternative, describe conditions that warrant a waiver of this requirement (*not required for applications to use groundwater-based return flows*). Include citations or page numbers for the State and Regional Water Plans, if applicable. Provide the information in the space below or submit a supplemental sheet entitled “Addendum Regarding the State and Regional Water Plans”:

The state and regional water plans generally do not address every possible change in individual water rights. This application is consistent with the 2021 Region D Water Plan and the 2022 State Water Plan because there is nothing in the plans that conflicts with the application.

- b. Did the Applicant perform its own Water Availability Analysis? Y / N N

If the Applicant performed its own Water Availability Analysis, provide electronic copies of any modeling files and reports.

- c. Does the application include required Maps? (Instructions Page. 15) Y / N N/A

Public Involvement Plan Form for Permit and Registration Applications

The Public Involvement Plan is intended to provide applicants and the agency with information about how public outreach will be accomplished for certain types of applications in certain geographical areas of the state. It is intended to apply to new activities; major changes at existing plants, facilities, and processes; and to activities which are likely to have significant interest from the public. This preliminary screening is designed to identify applications that will benefit from an initial assessment of the need for enhanced public outreach.

All applicable sections of this form should be completed and submitted with the permit or registration application. For instructions on how to complete this form, see TCEQ-20960-inst.

Section 1. Preliminary Screening

- ☐ New Permit or Registration Application
☒ New Activity - modification, registration, amendment, facility, etc. (see instructions)

If neither of the above boxes are checked, completion of the form is not required and does not need to be submitted.

Section 2. Secondary Screening

- ☐ Requires public notice,
☐ Considered to have significant public interest, and
☐ Located within any of the following geographical locations:

- Austin
- Dallas
- Fort Worth
- Houston
- San Antonio
- West Texas
- Texas Panhandle
- Along the Texas/Mexico Border
- Other geographical locations should be decided on a case-by-case basis

**If all the above boxes are not checked, a Public Involvement Plan is not necessary.
Stop after Section 2 and submit the form.**

- ☒ Public Involvement Plan not applicable to this application. Provide **brief** explanation.

None of the Secondary Screening criteria apply to this amendment application. This would be a purely administrative amendment that would not change the purpose or place of use, the appropriation amount, or the diversion point, and thus would not trigger public notice or generate significant public interest. Also, the diversion point is located in Red River County, which is not in any of the above-listed areas.

Section 3. Application Information

Type of Application (check all that apply):
