The request is for an addition of a diversion point and does not request an increase in diversion amount or rate, and as such will not impact water supply or availability.

The state and regional water plans generally do not address every possible change in individual water rights. The application is consistent with the 2021 Region F Water Plan and the 2022 State Water Plan because there is nothing in the plans that conflict with the application.

Other documents may include, but are not limited to a recorded easement, a land lease, a contract, or a citation to the Applicant's right to exercise eminent domain to acquire access.

- d. Point is at: Latitude 30.9226052 °N, Longitude -99.726982 °W.
Provide Latitude and Longitude coordinates in decimal degrees to at least six decimal places
- e. Indicate the method used to calculate the location (examples: Handheld GPS Device, GIS, Mapping Program): Google Earth
