

LPST ID NO. _____

SURVEY
For Responsible Parties of LPST Sites Potentially Eligible
to Transfer to State Lead

The following questions pertain to the LPST site identified above. If you are an RP at more than one LPST site potentially transferable to State Lead, please complete one survey per site.

1. Do you anticipate that all corrective action will be completed, and a *Site Closure Request* form (TCEQ-0028) will be submitted, to the TCEQ by August 30, 2007?
 Yes No

2. Do you intend to submit a *State Lead Transfer Request* form (to be made available on or before April 1, 2007) requesting to have your site placed in the PST State Lead program?
 Yes No

3. If the answer to #2 above is **yes**, please place a check in the appropriate corrective action phase column below, according to (a) present-day conditions, and (b) conditions anticipated on August 30, 2007.

Corrective Action Phase →	Site assessment	Remediation system approved but not installed	Operation & maintenance of a remediation system	Groundwater monitoring	Other (describe below):
(a) Today	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(b) On Aug. 30, 2007	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

NOTE:

- **Completion of this survey does not constitute application or approval to transfer to the State Lead Program.**
- **Eligibility for consideration to transfer to State Lead requires that corrective action activities continue through August 30, 2007, unless otherwise notified by TCEQ.**
- **Once in State Lead, completion of corrective action activities will depend on funding availability. Therefore, timing and/or completion of cleanup is not guaranteed.**

Please fax completed surveys (one survey per site) to (512) 239-2216, or mail to LPST Site Survey, TCEQ, MC-137, P.O. Box 13087, Austin, TX 78711-3087. Call (512) 239-2200 if you have questions. Thank you. We appreciate your cooperation.
