Public Notice

The Texas Water Commission is required under the Texas Solid Waste Disposal Act, Texas Civil Statutes, Article 4477-7, §13, (the Act), to identify and assess hazardous waste facilities or areas which may constitute an imminent and substantial endangerment to public health and safety or to the environment. The first registry of such sites was published in the *Texas Register* on January 16, 1987 (12 TexReg 205). The Act, §13(b)(2) and (c), require the commission to reassess the relative priority of the need for action at each site listed on the registry to remedy environmental and health problems resulting from the presence of hazardous waste at the site. The commission is also required to periodically update the registry to add new sites, to delete sites that have been cleaned up or delisted, or to modify any other information regarding the site.

Three sites, Butler Ranch, Lindsay Post Company, and Sonics International, were proposed for inclusion on the registry on January 16, 1987 (12 TexReg 205). Fifteen sites were proposed for inclusion on the registry on October 16, 1987 (12 TexReg 3858).

The following list constitutes the 1988 registry. The sites are listed in relative priority of the need for action at each site to remedy environmental and health problems resulting from the presence of hazardous waste at the sites. Also included are recommendations for actions which may be pursued to achieve effective, efficient, and timely cleanup or other resolution of the problems identified for each facility. The recommendations do not constitute the remedial investigation/feasibility study for the sites. Cleanup at each site may be achieved by one or more of the recommended remedial alternatives, and is not limited to the alternatives listed.

1988 Registry

- (1) Houston Lead, Houston, Harris County. Recommended cleanup by off-site transport and disposal and/or treatment, on-site treatment and surface cap, off-site reclamation, and groundwater recovery and treatment.
- (2) Houston Scrap, Houston, Harris County. Recommended cleanup by off-site transport and disposal and/or treatment, on-site treatment, or off-site reclamation.
- (3) Rio Grande Refinery I, Sour Lake, Hardin County. Site of former refinery. Recommended cleanup by biological treatment, excavation, off-site transport and disposal, or surface cap.
- Rio Grande Refinery II, Sour Lake, Hardin County. Site of former storage facility for refined fuels. Recommended cleanup by biological treatment, excavation, off-site transport and disposal, or surface cap.
- (4) State Marine, Port Arthur, Jefferson County. Recommended cleanup by biological treatment, excavation, surface cap, and run-on/run-off control.
- (5) Precision Machine, Odessa, Ector County. Recommended cleanup by off-site transport and disposal and groundwater recovery and treatment.
- (6) Sonics International, Ranger, Eastland County. Recommended cleanup by on-site excavation, off-site transport, and treatment.
- (7) Maintech International, Port Arthur, Jefferson County. Recommended cleanup by off-site transport and disposal, off-site treatment, or surface cap.
- (8) Federated Metals, Houston, Harris County. Recommended cleanup by run-on/run-off control, off-site transport and disposal, or on-site landfill.
- (9) Aztec Mercury, Alvin, Brazoria County. Recommended cleanup by off-site transport and disposal, run-off/run-on control, or surface cap.
- (10) Gulf Metals, Houston, Harris County. Recommended cleanup by off-site excavation and disposal, run-on/run-off control, surface cap, or on-site biological treatment.
- (11) Wortham Lead Salvage, Eustace, Henderson County. Recommended cleanup by excavation, off-site transport and disposal, run-on/run-off control, or surface cap.
- (12) Texas American Oil, Midlothian, Ellis County. Recommended cleanup by off-site transport and disposal, on-site biological treatment, or surface cap.
- (13) Niagara Chemical, Harlingen, Cameron County. Recommended cleanup by surface cap, off-site transport and disposal, incineration, or biological treatment.
- (14) McBay Oil and Gas, Grapeland, Houston County. Recommended cleanup by biological treatment,

excavation, off-site transport and disposal, and run-on/run-off control.

(15) Solvent Recovery Services, Arcola, Fort Bend County. Recommended cleanup by off-site transport and disposal or treatment, and run-on/run-off control.

(16) Harris Sand Pits, Von Ormy, Bexar County. Recommended cleanup by off-site disposal or treatment, run-on/run-off control, and surface cap.

(17) Butler Ranch, Karnes County. Recommended cleanup by excavation, off-site disposal and treatment, and surface cap.

(18) Pip Mineral, Liberty, Liberty County. Recommended cleanup by off-site disposal or treatment, surface cap, and run-on/run-off control.

(19) Hayes-Sammons Warehouse, Mission, Hidalgo County. Recommended cleanup by surface cap, off-site transport and disposal, or biological treatment.

(20) Baldwin Waste Oil, Robstown, Nueces County. Recommended clean-up by off-site transport and disposal or treatment, and run-on/run-off control.

(21) Waste Oil Tank, Houston, Harris County. Recommended cleanup by off-site transport and disposal or treatment.

(22) Hall Street, Dickinson, Galveston County. Recommended cleanup by surface cap, excavation, or off-site transport and disposal.

(23) Unnamed Plating Site, El Paso, El Paso County. Recommended cleanup by off-site transport and disposal, run-on/run-off control, or surface cap.

(24) La Pata Oil, Houston, Harris County. Recommended cleanup by off-site transport and disposal.

(25) Munoz Borrow Pits, Mission, Hidalgo County. Recommended cleanup by surface cap, off-site transport and disposal or treatment.

(26) South Texas Solvents, Banquete, Nueces County. Recommended cleanup by off-site transport and disposal or treatment, and excavation.

(27) Bestplate, Hutchins, Dallas County. Recommended cleanup by off-site transport and disposal, and run-off/run-on control.

At the request of one of the responsible parties and upon review and approval of the request by the executive director of the Texas Water Commission, the registry listing for Rio Grande Refinery (Number 3) has been modified to sever the site into two separate sites known as Rio Grande Refinery I (site of former refinery), and Rio Grande Refinery II (site of former storage facility for refined fuels).

The Lindsay Post Company Site, located in Alto, Cherokee County, was proposed for inclusion on the registry on January 16, 1987 (12 TexReg 205). The site is not presently included on the 1988 registry because the violations will be addressed through the commission's solid waste enforcement authorities.

Issued in Austin, Texas, on January 13, 1988.
