**Date:** Tuesday, March 24, 2020 3:56:32 PM

---

Good afternoon Mr. Saucedo,

The TCEQ has received your request for enforcement discretion to suspend the facility inspections as required. The TCEQ is committed to working with you as we respond to the COVID-19 pandemic.

Should staff not be available to conduct the required facility inspections due to the Dallas County stay-at-home order, your request is approved provided you can ensure all containers are in good condition, incompatibles are not stored near each other/have adequate separation and secondary containment areas are clear. If you have any questions or if new information becomes available, please feel free to contact us at any time.

Please continue to keep us updated as conditions change.

The TCEQ will revisit this issue at the appropriate time and reserves the right to withdraw this approval.

Regards,

Randy J. Ammons, Area Director  
North Central and West Texas Area  
Texas Commission on Environmental Quality

---

Clean Harbors operates a 10-day transfer facility in Dallas TX. The address and registration are:

**Clean Harbors**  
**8100 Chancellor Row**  
**Dallas, TX 75247**

**SWR No. 89053**

We are taking all actions necessary to ensure compliance with all applicable regulation to this 10-day transfer facility. However, due to the stay-at-home order issued for the Dallas County to try to contain the COVID-19 virus that goes into effect at 11:59 today the facility may not have the personnel available to conduct the required facility inspections as a transfer facility. We will document the reason and which days the inspections were not conducted and will resume these as soon as possible.

Please contact me if you have any questions.

THANKS!
