Subject: Lyondell Chemical Company, Channelview Plant - Performance Test Extension Request
Date: Tuesday, June 9, 2020 2:59:39 PM

Good afternoon, Ms. Geraci:

The TCEQ has reviewed your request to extend enforcement discretion at Lyondell Chemical Company- Channelview Plant for the performance testing of POSMI-F-630 Hot Oil Heater, as required by 40 Code of Federal Regulations Part 63, Subpart DDDDD and 30 TAC §113.1130, is approved and will be valid until July 14, 2020.

Enforcement discretion is limited to the Texas Commission on Environmental Quality. It does not limit EPA's ability to enforce federal regulations.

Regulated entities must maintain records adequate to document activities related to the noncompliance under enforcement discretion, including details of the regulated entity's best efforts to comply.

Regards,

Jonathan Walling, Area Director
Coastal & East Texas Area
Texas Commission on Environmental Quality
