

TCEQ AGENCY RULE REVIEW SCHEDULE

Texas Government Code, §2001.039, requires a four-year rule review cycle for all state agency rules, including Texas Commission on Environmental Quality (TCEQ) rules. The rule review is designed to ensure that the reason for adopting or readopting the rule continues to exist. It only includes rules currently in effect at the time the plan is adopted. The Notice of Intent to Review *proposal* notice declares the commission's intention to review a specific chapter (or group of rules) and must be published in the "Review of Agency Rules" section of the *Texas Register*. The notice only provides intent to review and invites public comment. The commission keeps any comments received for the rule review for possible future rulemakings.
