

Appendix G: List of document revisions

Date	Reason
August 2024	Corrected the ^{EM} HBAL _{10min} value for formaldehyde from 50 ppb to 132 ppb throughout the document and appendices. A footnote was added to Appendix E table.
September 2024	Added the newly calculated iBDIL for ethylene oxide to appendix A and B.
January 2026	Added iBDIL for xylenes; added AHBCV, iHPIL, iHBAL, EMHBAL (1sec, 1min, and 10 min) MMCVs for sulfur dioxide; updated sulfur dioxide section in Appendix D; made minor editorial corrections throughout. The main document and all appendices were updated.
