

TCEQ Surface Water Quality Monitoring

Nonstandard Data Request Form

For assistance in completing this form, please contact the Data Management & Analysis Team at (512) 239-6682 or wdma@tceq.texas.gov

This form must be accompanied by a completed Standard Data Request Form.

Include Data* Where the:

- | | |
|--------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------|
| <input type="checkbox"/> LOQ is higher than the AWRL | <input type="checkbox"/> Value is from a preserved, rather than unpreserved, sample |
| <input type="checkbox"/> Value is above the quantitation range of the instrument | <input type="checkbox"/> Lab indicated instrument failure occurred during analysis |
| <input type="checkbox"/> Blank did not meet QA criteria | <input type="checkbox"/> Value was obtained using alternative or experimental method(s) |
| <input type="checkbox"/> Analyte concentration was less than the limit of quantitation but greater than the limit of detection | <input type="checkbox"/> Sample container arrived at the lab leaking |
| <input type="checkbox"/> Value was not identified as an outlier, but was deemed unreasonable by the collector | <input type="checkbox"/> Material was specifically analyzed for but not detected |
| <input type="checkbox"/> Value Did Not Pass some or all Q.C. Criteria (specific failure unknown) | <input type="checkbox"/> Data was not collected under an agency approved QAPP (i.e., data quality unknown) |
| <input type="checkbox"/> Value is duplicative of another value in the database (i.e., same data reported twice) | <input type="checkbox"/> Sample was received with a deficiency that occurred during shipping |
| <input type="checkbox"/> Value has an increased level of uncertainty due to an unspecified lab error | <input type="checkbox"/> Value was identified as an outlier and deemed unreasonable by the collector |
| <input type="checkbox"/> Value has been estimated | <input type="checkbox"/> Sample was improperly collected |
| <input type="checkbox"/> Hold time has been exceeded | <input type="checkbox"/> RPD value fell outside specified acceptance limits |
| <input type="checkbox"/> Value has an increased level of uncertainty because of interference that occurred during analysis | <input type="checkbox"/> RPD value from field split results fell outside the specified acceptance limits |
| <input type="checkbox"/> Spike recover fell outside specified acceptance limits | <input type="checkbox"/> Preservation temperature was exceeded |
| <input type="checkbox"/> Analyte concentration was less than the limit of detection | <input type="checkbox"/> Value was deemed unreasonable by the TCEQ data validator |

**** Data users should use caution when requesting any data meeting any of the above conditions.***

These results have an increased level of uncertainty associated with them. Consequently, TCEQ has chosen not to use these data in regulatory decisions, water quality assessments, or other applications where it is necessary to use only data of the highest quality.

Quality Assurance data requested:

- Equipment Blank
- Field Blank
- Trip Blank
- Field Split
- Continuous Monitoring QA sample

In order for us to better serve you, please tell us about how you intend to use the data you are requesting today:

When completed, submit this form to wdma@tceq.texas.gov.
