

TCEQ Surface Water Quality Monitoring

Standard Data Request Form

For assistance in completing this form, please contact the Data Management & Analysis Team at (512) 239-6682 or wdma@tceq.texas.gov

Requestor Name: _____

Email Address to Receive Data: _____

Requestor Phone #: _____

Request Data from _____ to _____ OR Entire period of record

Request Data from the following geographic entity:

Station Segment Basin

Please list the station(s), segment(s), or basin(s) below:

Type of Data Requested*

- | | |
|---|--|
| <input type="checkbox"/> Routine monitoring not intentionally biased toward any environmental condition or event | <input type="checkbox"/> Routine diel monitoring not intentionally biased toward any environmental condition (the summary statistics are coded "RT") |
| <input type="checkbox"/> Monitoring intentionally biased toward a specific event (e.g., fish kill, spill) | <input type="checkbox"/> Diel monitoring intentionally biased toward a specific event (the summary statistics are coded "BE") |
| <input type="checkbox"/> Monitoring intentionally biased toward certain flow conditions (e.g., runoff event) | <input type="checkbox"/> Diel monitoring intentionally biased toward certain flow conditions (the summary statistics are coded "BF") |
| <input type="checkbox"/> Monitoring intentionally biased toward a certain time of year (e.g., season or index period) | <input type="checkbox"/> Diel monitoring intentionally biased toward a certain time of year (the summary statistics are codes "BS") |
| <input type="checkbox"/> Data from the Continuous Water Quality Monitoring Network (CWQMN) | <input type="checkbox"/> Quality Control/Quality Assurance Samples*** |
| <input type="checkbox"/> Retired data type** (please specify): _____ | |

* For a complete explanation of data types, see the Data Management Reference Guide at https://www.tceq.texas.gov/waterquality/data-management/dmrg_index.html

** See the Data Management Reference Guide at https://www.tceq.texas.gov/waterquality/data-management/dmrg_index.html for the list of retired monitoring types.

*** If quality control sample results are requested, submit a Nonstandard Data Request Form in addition to this form.

Parameters of interest*:

- 24 Hour /Diel
- Field
- Bacteria
- Inorganics (Conventional Chemistry)
- Nutrients
- Metals
- Organics
- Other:

Media of interest:

- Water
- Sediment
- Tissue
- Biological

* Refer to the Data Management Reference Guide at http://www.tceq.texas.gov/compliance/monitoring/water/quality/data/wdma/dmrg_index.html for a complete list of parameters associated with each of these groups.

Important information regarding data requests:

Data provided for requests made on this form will only include data that met quality assurance/quality control (QA/QC) requirements. Any data not meeting all QA/QC requirements of the project under which they were collected must be requested using the Nonstandard Data Request, in addition to this form.

In order for us to better serve you, please tell us about how you intend to use the data you are requesting today:

When completed, please submit this form to wdma@tceq.texas.gov.
