

**Response to Preliminary EPA Comments:  
Two Total Maximum Daily Loads for Indicator Bacteria in Big Creek**

Tracking Number	Date Received	Affiliation of Commenter	Summary of Request or Comment	Summary of TCEQ Action, or Explanation
001	01/05/2024	Jonathan Jimenez, EPA	EPA requested that Table 21 be updated with the correct Margin of Safety (MOS) value of 160.140 for AU 1202J_01. EPA also requested to correct Table 10 since it is incorrectly listed as Table 90.	<p>TCEQ acknowledges the comments from EPA and concurs with the need for correction of these typos.</p> <p>TCEQ reviewed the TMDL and confirmed that the incorrect MOS originally listed in Table 21 was a typo and did not affect the overall TMDL calculations. Appropriate edits have been made to the TMDL document based on these comments.</p>
