

Response to Public Comment:
Implementation Plan for One Total Maximum Daily Load for Indicator
Bacteria in the Cotton Bayou Watershed

Tracking Number	Date Received	Affiliation of Commenter	Summary of Request or Comment	Summary of TCEQ Action, or Explanation
001	12/3/24	Sherry Romska, Local Resident	Comment: "This will not be good for this community as it's an elderly community. I have allergies as well as diabetes. Not to mention there's a school right behind us the small children. It will cause breathing issues for everybody."	<p>This comment is not related to the Cotton Bayou I-Plan.</p> <p>TMDL staff followed up with the commenter to provide information on a different notice of request for public comment, that was open at the same time, for an Air Quality Standard Permit. TMDL staff did not receive a response from the commenter.</p> <p>No changes were made to the I-Plan document based on this comment.</p>
