DOMESTIC WASTEWATER

The following summary is provided for this pending water quality permit application being reviewed by the Texas Commission on Environmental Quality as required by 30 Texas Administrative Code Chapter 39. The information provided in this summary may change during the technical review of the application and are not federal enforceable representations of the permit application.

White River Municipal Water District (CN600862585) operates the Water Treatment Plant RN10613966. a conventional potable drinking water treatment facility. The facility is located at 2880 FM 2794, Spur, Texas 79370, in Spur, Crosby County, Texas 79370.

The White River Municipal Water District has applied for a renewal of the existing permit WQ0010621001 that authorizes the discharge of filter backwash wastewater at a daily average flow not to exceed 90,000 gallon per day.

Discharges from the facility are expected to contain total suspended solids .Filter backwash is treated by produced during the potable drinking water process.

The terms “treated by” are not applicable to a potable drinking water plant.
